PROJECTED BRAUER'S AVIATORS FLYING FIELD

The club's officers have been diligently working to secure our new flying field. There have been many challenges, hopes and disappointments. We believe we are very close to obtaining all the easements necessary to allow us access to the field. The land owner is in full agreement with our proposed flying field, the Wendelville Fire Company and Hebel Sales and Service have verbal agreements to allow us to use their property for ingress / egress to the field. Hopefully the finalization of the easements will go smoothly. Once this is complete we can start preparing the field for runway grass planting. Currently this is farm land and not suitable for a rock free smooth runway. The runway has to be de-rocked and smoothed out before grass can be planted. The officers are looking into the cost of having this task performed by a non club member. Hopefully this activity can be performed in a cost effective manner and we'll be able to plant grass in the fall and fly, at OUR field in the spring.

The map below is an approximation of the flying field and the surrounding properties. Our flying field will be in a farm field with a huge overflying area, good parking, no immediate housing and a bigger runway.

We are getting closer to having our own field, just a few more steps. ALWSD, Brian →
