STARPOINT FLYERS

Dick Brazell, Master Builder shares his experiences with Starpoint Students building the foam EZ-Cruiser. There are 8 students building these trainer / slow flyer airplanes. With the generous donations from Brauer's club members we were able to completely furnish all the components that Starpoint HS could not provide. A Thank You letter was sent to the club thanking Kevin Borzilleri, Joe Suarez, Mike Bucklaew, Jim Behnke and Brian Mau for their contributions. The students' are in the final stages of assembling their planes and adding the components. We'll be flying before the end of the school in June.

PEPPER AS A BLOOD CLOTTING AGENT

I was reading an article in the Buffalo News a few weeks back about the use of household Pepper to stop bleeding. I can tell you that it works. The cut looks the color of Pepper, but it very quickly will stop the bleeding. I took an old small pill bottle and put some pepper in and keep it in my field box. If you have pepper packets from your local fast food joint, you could keep those in your field box instead. →
