The Official Newsletter of Brauer's Aviators
AMA Club Charter Number 1612 - www.Brauersaviators.org May

, 2020

Club Meetings are held the **Second** Thursday of every month at Brauer's Restaurant 6611 Campbell Blvd.
***** As per Brian Mau, Meetings are suspended until further notice! Stay Home – Stay Safe! *****

FIELD UPDATE – OPENING MAY 15TH (WEATHER PERMITTING)

The club officers met out at the field on Wednesday evening. The runway and pit area has been mowed (mostly). The field overall is in great shape. We believe that once we get through the snow this weekend and everything gets to dry out a bit more, we should be able to open up the field on May 15th. Please use good judgement when driving back there. If it looks like you will leave bad ruts or may get stuck, DON'T DRIVE BACK! →

SOCIAL DISTANCING AT THE FIELD!

As we have a very vulnerable population as club members, we must be very diligent with our social distancing rules.

1. Masks are required.
2. Don't congregate together, keep at least 6 feet apart.
3. We set up the starting benches up in 2 rows to keep folks further apart. Please leave them in that configuration for everyone's safety.

FROM THE PRESIDENT

Greetings;

Sorry but due to the Cv-19 there will be NO MEETING in May.

We trust that you are healthy and holding up well during this pandemic. It certainly has changed our lives in a way I couldn't have imagined. The social distancing can be a challenge and staying home or working from home also can create some stress. Hopefully our field will dry out a little more and we can get back to flying. Our flight stations are more than 6 feet apart so we should be OK in that respect. Wearing a mask in close proximity to other club members will remain in effect.

Pictured below are some of the aircraft being built during this stressful situation?

Mike Bucklew is building a F6F foam fighter from the plans found in The Park Pilot.
(Editor's note: I couldn't seem to get the picture of Mike's plane to copy. Sorry Mike).

THE AVIATOR

I've always liked Biplanes and the EZ cruiser so I added another wing to the cruiser. It's a great flier. It flies beautiful and is much more reactive.

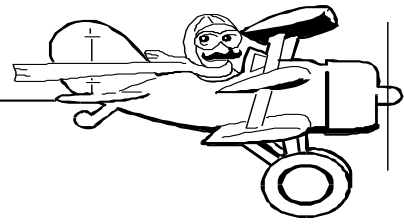

Joe Suarez built this Sig 20 with electric power. Joe says it a great Flier.

Greg Gee is a master builder and flyer. This Christmas present from his wife is a testament to his skill as a builder and his patience. Well Done Greg, hope you can bring this bird up when you come to visit.

THE AVIATOR

Dan Yaeger's ME-109 with an OS FP .40. Bought from an auction a couple of years ago; just finishing the radio installation.

Please consider sending me a photo of your plane so we can include it in our newsletter. It's always interesting to see how creative our club members can be in the building or "remodeling" our planes.

Please stay Healthy, and we be flying soon.

ALWSU -- Brian →
